### Vulca treatments

Mineral based wraps. No iodine, no harmful effects, 100 % nature.

AgriSpa Frà Viaco is strongly connected to the territory. This is why we chose the Geomedical products for our Spa. Geomedical minerals are formed thanks to the rocks and the thermal waters from around the most important european volcanic zone, between the lake of Bolsena and the lake of Mezzano. There are five different specialised treatments for your body, each suitable for restoring a better physical shape with 5 different active mechanisms:

- VulcaDren, draining treatment to eliminate any excess liquids
- VulcaTon, toning treatment to reactivate the microcirculation
- VulcaVen, a wrap that reactivates peripheral circulation
- VulcaLipolit, specific treatment to counteract excessive fat accumulation
- VulcaR.L.O Specialist, to counteract excessive formation of free radicals

*Specialised body treatment and massage, duration 55 minutes, 80 euros*

## **AgriSpa Face Beauty**

AgriSpa Frà Viaco is most of all about well being. For the health of your skin you have a variety of mineral masks with various functions: purifying, toning, calming, sebum balancing and anti-age. These are masks made from volcanic rocks to guarantee a deep intervention for the skin. A healthy face for a clean, natural and total beauty.
